AND SERIOUS ACCIDENTS

OF MYSORE DURING THE YEAR 1935.

Table 13

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Blackrock cooly...	No. 47 stope below the 54th level S., (East Reef), No. 1 Incline Shaft.	I	Fall of ground from hanging wall ...	Extensive lacerated wound of left knee, muscles cut, joint opened, lacerated wound lower 3rd leg, compound comminuted fracture of upper 3rd of right tibia and wounds of lower 3rd leg.
Sweeper ...	Drive, 45th level N., Ribblesdale's No. 1 Winze.	XIX	While crossing over a pile of rock, one of the pieces rolled down and struck his leg.	Wound over left tendo-achilles, tendon completely cut.
Blackrock cooly...	No. 38 stope below the 48th level S., Rowse's Auxiliary Shaft.	XIX	While clearing stuff, a piece of rock rolled down and struck his knee.	Wound of right knee joint opened.
Picking floor cooly	Main Waste Rock Dump (surface).	XXII	While pulling a bandy, a wheel passed over his foot.	Extensive lacerated wounds of dorsum and sole of left foot.
Blackrock cooly...	No. 1 winze below the 53rd level S., Rowse's Auxiliary Shaft.	XV	While climbing up by ladder, he slipped and fell a distance of 8 feet.	Contusion of lower part of back.
Stuff cooly ...	Skip road below the 63rd level, McTaggart's Main Winze.	VIII	While crossing the skip road, he slipped and fell down the shaft.	Head smashed and multiple wounds all over the body.
Machine cooly ...	Stope below the 51st level N., McTaggart's Main Winze.	XIII	Due to the explosion of an unexploded charge of explosives.	Right hand severed from arm above wrist, right side of face blown away and multiple peppered wounds all over body.
Machine mestri (M. 3,285.)	Do ...	Do	Do ...	Peppered wounds of scalp, face, both eyes (no vision), all over body and right knee, joint opened.
Blackrock cooly...	Drive, 44th level S., Ribblesdale's Auxiliary Shaft.	XIX	A piece of rock fell on his knee ...	Wound of left knee, joint opened.
Handjumper cooly	No. 45 stope below the 46th level N., Ribblesdale's Auxiliary Main Winze.	XIII	Tampered with a socket containing remnant of the previous charge of explosives.	Foreign bodies in both eyes, peppered wounds of face, both upper extremities, chest-wall, left leg, right thigh and knee.

AND SERIOUS ACCIDENTS

OF MYSORE DURING THE YEAR 1935.—*Continued.*

Table 13.—*Continued.*

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Road cooly ...	Ladderway above the 16th level, Rowse's Shaft.	X	While climbing up by ladderway, a plank fell on his foot.	Extensive lacerated wound of dorsum of left foot with compound comminuted fracture of 1st and 2nd metatarsals.
Machine cooly ...	No. 93 stope below the 1,800 ft. level N., Tennant's Shaft.	XIX	While clearing stuff, a piece of rock fell on him.	Lacerated wound of left ring finger, 2nd, 3rd and 4th toes crushed and amputated.
Machine mestri (M. 11,688,—B 7,957).	No. 4 rise above the 51st level S., Ribblesdale's Auxiliary Shaft.	XIX	While bringing down loose rock, a piece fell on his foot.	Lacerated wounds of dorsum of left foot with compound fracture of proximal phalanges of 1st, 3rd and 4th toes.
Handjumper cooly	No. 98 stope below the 48th level S., Ribblesdale's Auxiliary Shaft.	XIX	While drilling a hole, a small chip of quartz flew into his eye.	Penetrating wound of right cornea with loss of vision.
Stuff mestri (M. 13,280).	Drive, 63rd level S., McTaggart's Main Winze.	XIX	While filling a bandy, some pieces of rock fell on him.	Lacerated wound of both temples, right middle finger. Extensor tendon cut, wound of face (left), right ear, middle of right forearm, below left knee, lower 3rd of right thigh and contused wounds of right chest-wall.
Blackrock cooly...	No. 1 stope below the 236 ft. level S., Plummer's Shaft.	XIX	While mixing sand and cement with water, some slush flew into his eye.	Traumatic cataract and conjunctivitis of right eye.
Blackrock mestri (M. 13,007).	Stope below the 46th level S., Ribblesdale's Auxiliary Main Winze.	XV	He fell astride a pole forming part of a stage.	Wound of scrotum and partial rupture of urethra.
Handjumper cooly	Stope below the 44th level N., Rowse's No. 1 Auxiliary Shaft.	XIX	While clearing stuff, a piece of rock fell on his leg.	Extensive lacerated wound of lower 3rd of right leg and ankle.
Handjumper cooly	No. 44 stope below the 46th level N., Ribblesdale's Auxiliary Main Winze.	XI	A rockburst	Extensive lacerated wounds of face with compound fracture of nasal bones, chin with bone exposed and loss of upper lateral incisor, lower 3rd left thigh, muscle injured and wounds of left arm, elbow and right great toe.

AND SERIOUS ACCIDENTS

OF MYSORE DURING THE YEAR 1935.—Continued. Table 13.—Continued.

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Timber cooly ...	Footwall drive, 46th level S., Edgar's Shaft.	XIX	While fixing a rail set, a piece of rock fell on his foot.	Septic wound dorsum of left foot with cellulitis.
Sweeper ...	Company's cattle shed (surface).	XXIII	He was knocked down by a bullock in the cattle shed.	Colles' fracture, right.
Gang cooly ...	Assay office (surface)	XXIII	He threw a bucket of water into the fire box of a retorting furnace resulting in a sudden rush of steam.	Burn of right arm.
Handjumper cooly	Plat, 34th level, Tenant's Main Winze.	XIX	While filling a skip, his leg was caught between the plat rails.	Lacerated wound below left knee.
Timber cooly ...	Intermediate drive S. above 46th level S., Mc Taggart's Main Winze.	II	Fall of rock from the back of the level.	Simple fracture of middle of right tibia with wound of right leg and dorsum of left foot.
Handjumper cooly	No. 4 stope below the 53rd level S., Mc Taggart's Main Winze.	XIX	While at work in the stope, a piece of rock fell on his leg.	Lacerated wound over left tendo-achilles, tendon partly cut.
Timber mestri, (M. 12,659).	Engine Chamber, 49th level, No. 1 Incline Shaft.	XIX	While taking down loose, a chip of rock flew into his eye.	Penetrating wound of left cornea with traumatic cataract.
Stuff cooly ...	Quartz Dump, Crocker's Shaft (surface).	XXII	While pushing a bandy, he slipped and fell on the tram line.	Rupture of urethra.
Handjumper cooly	No. 24 stope below the 46th level N., Ribblesdale's Auxiliary Main Winze.	XI	A rockburst.	Lacerated wound of forearm with fracture of outer table of frontal bone, wounds of scalp, face, left shoulder, left knee and right leg.
Do ...	Do ...	Do	Do ...	Lacerated wound lower 3rd of left forearm, contused wounds of dorsum of left hand with compound fracture of 3rd metacarpal, wounds of left shoulder, lower part of back and dorsum of right hand.
Do ...	Do ...	Do	Do ...	Lacerated wound of left shoulder, neck and behind left ear.
Machine cooly ...	Sink, 340 feet below the 80th level, Edgar's Sub-Vertical Shaft.	XIX	While taking out a steel crib ring, a piece of concrete fell on his leg.	Compound fracture lower 3rd of right tibia.

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Handjumper mestri, (M. 6,438-B. 4,482).	No. 7 stope below the 1,260 ft. level S., Ribblesdale's Shaft.	XIII	Due to drilling into a socket containing remnant of the previous charge of explosives.	Foreign-bodies in both eyes with haemorrhage into the anterior chamber of left eye, peppered wounds of face, chest-wall, both upper extremities and both legs.
Machine mestri, (M. 9,795).	Drive, 80th level S., Edgar's Sub-Vertical Shaft.	XIX	While fixing the bar, some pieces of rock fell on him.	Lacerated wounds of left knee, joint opened and lower 3rd of right forearm.
Handjumper cooly	No. 130 stope below the 44th level N., Rowse's Auxiliary Shaft.	XIII	Due to the explosion of a socket containing a portion of the previous charge of explosives.	Extensive lacerated wound of right side of chest-wall, muscles cut. Wounds of left chest-wall, abdomen, right elbow, joint opened, left forearm, upper 3rd with ulna chipped, hand, lower 3rd of right thigh, knee and peppered wounds all over body.
Do ...	Do ...	Do	Do ...	Lacerated wound lower 3rd of right forearm, muscles cut, right thumb, foreign bodies in both eyes, peppered wounds of face, and lacerated wound of neck with trachea opened.
Do ...	Do ...	Do	Do ...	Lacerated wound, right side of chest-wall, muscles cut. Wounds of scalp, upper 3rd of left thigh, peppered wounds of face, chest-wall and foreign bodies in both eyes.
Stuff cooly ...	No. 3 winze, 80th level, Edgar's Sub-Vertical Shaft.	XIX	While drilling a hole, some slush flew into his eye.	One day old corneal ulcer of left eye with little vision.
Handjumper cooly	No. 70 stope below the 2,000 ft. level N., Tennant's Shaft.	XV	While at work in the stope, a casuarina pole fell on his arm.	Simple fracture middle 3rd of left humerus.
Road cooly ...	Ladder road below the 890 ft. level, Rowse's Shaft.	VIII	The collar on which he was working collapsed, causing him to fall 15 feet.	Wound of scalp, Colles' fracture, right. Contused wounds of back with fracture of right lower ribs, multiple wounds of both feet

Table 13.—*Continued.*

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Blackrock cooly...	Drive, 55th level N., No. 1 Incline Shaft.	XVII	His hand was caught between a moving bandy and a piece of timber..	Simple fracture both bones of left forearm at junction of middle and lower 3rd. Died in hospital on 4th September.
Blackrock cooly...	Drive, 44th level S., Rowse's Auxiliary Shaft.	XVII	While putting a derailed bandy on the track, his foot was caught under a wheel.	Extensive lacerated wound dorsum and sole of left foot with compound fracture of proximal phalanges of 2nd and 3rd toes and 4th toe crushed and amputated.
Timber cooly ...	Drive, 33rd level N., South Reclamation Winze.	I	Fall of rock from hanging wall ...	Fracture of spine (middle), wound middle of left forearm and lower 3rd of left leg. Died in hospital on 9th November.
Do ...	Do ...	Do	Do ...	Extensive lacerated wound lower part of back with compound fracture of spinous process of lower lumbar vertebrae and wound lower 3rd of left leg.
Handjumper cooly	No. 21 stope below the 1,450 ft. level S., Gilbert's Shaft.	XI	A rockburst ...	Lacerated wound of left knee, joint opened, contused abrasions of right knee and lower 3rd leg.
Do ...	Do ...	Do	Do ...	Extensive lacerated wound lower part of back with fracture of pelvis and muscles cut and wound of forehead.
Stuff cooly ...	Drive, 81st level N., North Auxiliary Vertical Shaft.	XIX	While clearing stuff, he fell on some pieces of rock in the level.	Contused abrasion of back.
Handjumper cooly	No. 121 stope below the 48th level S., Ribblesdale's Auxiliary Shaft.	XV	While climbing up by ladder, he slipped and fell a distance of 10 feet.	Contused abrasions of left shoulder, back, both elbows, hands and right hip.
Blackrock cooly...	Drive, 34th level S., Tennant's Main Winze.	XV	Owing to the collapse of the level, he fell down a stope about 30 feet.	Extensive lacerated wounds of scalp, multiple lacerated wounds all over body.

Timber cooly ...	No. 52 stope below the 32nd level N., Ribblesdale's Shaft (Reclamation area).	XV	While pushing a bandy, he slipped and fell into a newly started stope.	Contused abrasions of back, both buttocks, right thigh, left knee, wounds of right forearm, dorsum of left hand, right knee, leg and right foot.
Belt boy ...	Timber yard (surface).	XXIII	While resting against a stack of timbers, one of them rolled on his back.	Compressed fracture of 1st and 2nd lumbar vertebrae.
Handjumper cooly	No. 40 stope below the 52nd level S., No. 1 Incline Shaft.	XIII	Through drilling into a socket containing portion of an unexploded charge of explosive.	Multiple wounds of scalp, face, compound depressed fracture of skull (a little brain come out), wounds of left arm, muscles cut, wound of right arm. Died in hospital on 5th December.
Do ...	Do ...	Do	Do	Wounds of left eyebrow, upper lip, extensive lacerated wounds of left thigh, muscles cut, multiple wounds all over the body, compound fracture of left pubic bone.
Stuff cooly ...	Drive, 81st level S. from No. 6 Winze below the 80th level N., South Auxiliary Vertical Shaft.	XV	While hoisting stuff, some pieces of rock falling down the winze struck him.	Wounds of right knee, joint opened and lacerated wounds dorsum of foot and right elbow. Died in hospital on 26th April, 1936.
Blackrock cooly...	Chute above the plat, 48th level, Ribblesdale's Auxiliary Main Winze.	XIX	While building a chute, a piece of rock fell on his leg.	Lacerated wounds of lower 3rd of right leg, tendo-achilles partly cut
Stuff cooly ...	Engine Chamber, 51st level, Edgar's Sub-Vertical Shaft.	XIX	While collecting jumpers, a piece of rock fell on his leg.	Lacerated wound of lower 3rd of right leg, tendo-achilles completely cut and tibia slightly chipped off.
Blackrock cooly...	Cage road above the 1,460 ft. level, Rowse's Shaft.	XIX	While breaking a large piece of rock, a chip flew off and struck his leg.	Wound of lower 3rd of left leg with compound fracture of fibula just above the malleolus. Fracture base of internal malleolus.

Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Road mestri, (M. 12,011).	Sink, 80 feet below the 38th level, North Reclamation Winze.	I	Fall of ground from the hanging wall.	Lacerated wound of right knee, joint opened, wounds of left elbow and right forearm.
Road cooly ...	Do ...	Do	Do ...	Lacerated wound dorsum of left hand, extensor tendons cut, compound fracture of 3rd and 4th metacarpals.
Concreting cooly	Cage road below the 70th level, North Main Winze.	XIX	While fixing a byatt, some mortar fell in his eye.	Eleven days' old traumatic cataract of left eye with complete loss of vision.
Machine cooly ...	Stope below the 68th level N., North Development Winze,	XIX	While drilling, a piece of rock fell on his foot.	Extensive lacerated wounds of dorsum of right foot and ankle.
Machine cooly ...	Stope above the 73rd level S., South Development Winze.	XIX	While drilling, the jumper broke and the machine fell on his leg.	Wound lower 3rd of right leg and above right outer ankle with fracture of internal malleolus.
Concreting cooly	Drive, 78th level N., Heathcote Shaft.	XVII	A wheel of a bandy passed over his foot.	Right 2nd toe crushed and amputated at 1st joint, compound fracture of terminal phalanx of great toe.
Machine cooly ...	Sink, 70 feet below the 78th level, Heathcote Shaft.	XI	A burst of rock ...	Extensive lacerated wound of right leg, muscles cut and wound dorsum of foot, wounds of right thigh, dorsum of ring finger and wound of left inner ankle.
Concreting cooly	South rill stope above the 72nd level S., South Development Winze.	XIX	While clearing stuff, a piece of rock struck his leg.	Lacerated wound of left heel.
Pumping cooly ...	No. 4 slimes collecting tank—Cyanide Plant (surface).	XXIII	He overbalanced from the top of a collector vat and fell about 12 feet to the ground.	Concussion and cerebral irritation of brain with fracture of pelvis.
Handjumper cooly	Stope below the 40th level S., Glen's Secondary Shaft.	XIX	While drilling, a piece of rock fell on his knee.	Wound of right knee, joint opened.
Stuff cooly ...	Drive, 69th level S., Carmichael's Secondary Shaft.	XVII	While pushing a bandy of quartz, he slipped and fell on the tram line.	Simple fracture of outer 3rd of left clavicle.

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Handjumper cooly	Stope below the 2nd level, Old Carmichael's Shaft.	XIII	Through drilling into a socket containing a small quantity of explosives.	Hand crushed and amputated at the wrist, peppered wounds of chest-wall and lower extremities.
Timber mestri, (M. 12,955).	Bucket-road, 10 feet above No 2 level, North Pit, Old Carmichael's Shaft.	XIX	While fixing a timber, he slipped and fell about 6 feet.	Contused abrasion lower part of back.
Timber cooly ...	Drive, 21st level S., Tennant's Shaft.	XIX	While at work in the level, some pieces of loose rock fell on them.	Simple fracture middle of left femur and wound upper third of left leg.
Do ...	Do ...	Do	Do ...	Extensive lacerated wound dorsum of right foot, wounds of right knee, lower 3rd of left thigh and upper 3rd of left leg.
Timber cooly ...	South rill stope above the 72nd level S., North Main Winze.	XIX	While building a packwall, a piece of rock fell on his leg.	Wound of left leg, tendo-achilles completely cut.
Concreting cooly	Stope below the 76th level S., South Development Winze.	XIX	While clearing stuff, he slipped and fell about 5 feet.	Contusion of middle of back, wound of right elbow, ulcer of right ring finger. Also compression fracture of 7th dorsal vertebra.
Tramner ...	Tramline, picking floor yard (surface).	XXII	A wheel of a bandy ran over his foot.	Five days' old neglected septic wound of dorsum of left foot and last three toes with cellulitis and gangrene of last toe.
Stuff cooly ...	Drive, 69th level N., Carmichael's Secondary Shaft.	XVII	While pulling a bandy, his leg was caught under its frame.	Compound fracture of both bones, middle of left leg and wound of right leg.
Machine cooly ...	No. 1 winze below the 79th level S., South Development Winze.	XV	While drilling, a piece of rock fell on his head.	Lacerated wound of scalp with fracture of skull
Machine cooly ...	Stope above the 77th level N., South Development Winze.	XIX	While clearing stuff, a piece of rock fell on his knee.	Lacerated wound of left knee.
Concreting cooly	Stope above the 78th level N., South Development Winze.	XIX	While clearing stuff, a piece of rock fell on his arm.	Lacerated wound of left forearm, muscles cut.

Table 13.—*Continued.*

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Stuff cooly ...	Drive, 700 ft. level N., Tennant's Shaft.	XVII	While pulling a bandy at the points, he slipped and was caught between the bandy and some pipes.	Contused abrasions of right hip and lower part of chest-wall and fracture of pelvis.
Blaster (M. 11,705 B. 7,964).	Stope above the 76th level S., South Development Winze.	XIX	While clearing down loose, a piece of rock fell on his foot.	Contused abrasions of dorsum and lacerated wound of inner side of left foot.
Machine mestri, (M. 13,629—B. 8,886).	Crosscut west, 80th level, South Development Winze.	XI	A burst of rock ...	Extensive lacerated wound of right side of face with compound comminuted fracture of mandible with wounds of neck, upper part of back, left wrist, middle of right leg and last toe.
Concreting cooly	Drive, 75th level S., South Development Winze.	XVII	His arm was caught between a moving bandy and a side of the level.	Simple fracture of lower 3rd of right radius.
Trammer ...	Tramline in the quartz yard (surface).	XXII	While pushing a bandy, another from behind struck his leg.	Compound fracture of lower end of right fibula.
Machine mestri, (M. 10,358—B. 7,149).	Plat, 76th level, North Main Winze.	XIX	While barring down loose rock, a piece of stone fell on him.	Contusion of left hip, wounds of right arm and left forearm and impacted fracture of neck of left femur.
Machine cooly ...	North stope above the 75th level S., South Development Winze.	III	While drilling a hole, some pieces of quartz from the working face fell on him.	Contusion of back, punctured wound of left side of abdominal wall, wound of chin, chest and left thigh. Died in hospital on 1st May due to traumatic pneumonia.
Machine mestri. (M. 14,312).	Stope above the 76th level S., South Development Winze.	XIX	While starting a hole, a piece of quartz fell on his knee.	Wound of left knee, joint opened.
Machine cooly ...	Winze (on west reef) below the 76th level N., North Main Winze.	XIX	While clearing stuff in the sink, a piece of quartz fell on his hand.	Extensive lacerated wound of dorsum and palm of left hand with compound fracture of 1st metacarpal, muscles and tendons cut.

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Trammer ...	Quartz yard, Picking Floor (surface).	XXIII	While lowering an empty truck in the cage, it ran out and fell on him.	Extensive lacerated wound of upper 3rd of right thigh, muscles injured. Wound of scalp and abrasion of dorsum of right hand with simple fracture of last two metacarpals.
Machine cooly ...	No. 1 winze, 79th level N., South Development Winze.	XIX	While drilling a hole, a stone fell on his knee.	Wound of left knee, joint opened.
Concreting cooly	Stope above the 70th level N., South Development Winze.	XIX	While mixing concrete, some pieces of rock fell on his leg.	Extensive lacerated wound of dorsum and sole of left foot with 4th toe crushed and amputated and compound fracture of middle phalanx of last toe and wound of lower 3rd of leg.
Concreting cooly	Drive, 76th level S., South Development Winze.	XIX	While lifting a piece of rock, it broke and fell on his foot.	Contused swelling of dorsum of foot and lacerated wounds of left 3rd and 4th toes and sole of foot.
Machine cooly ...	Stope above the 78th level S., South Development Winze.	XIX	While at work in the stope, a piece of rock fell on his knee.	Lacerated wound of left knee, joint opened.
Stuff cooly ...	Drive, 23rd level S., Tennant's Shaft.	XVII	While lifting up a derailed bandy, his hand was caught between it and a side of the level.	Colles' fracture, left.
Machine cooly ...	No. 2 winze below the 78th level S., South Development Winze.	XIX	While starting a hole, a small chip of rock flew into his eye.	One day old corneal ulcer of right eye.
Stuff cooly ...	Bill stope above the 71st level S., South Development Winze.	XIX	While pulling down filling, a piece of rock struck his foot.	Lacerated wound of dorsum of left foot with compound comminuted fracture of 1st metatarsal.
Machine cooly ...	Drive, 77th level S., South Development Winze.	XIX	While tilling a bandy, a piece of rock fell on his leg.	Compound fracture of left metatarsal and wound of leg.
Timber cooly ...	Bill stope above the 73rd-level S., North Main Winze.	XI	A burst of quartz ...	Wounds of upper 3rd right leg, knee, elbow and contused wound of left side of back.

OF MYSORE DURING THE YEAR 1935.—Continued. Table 13.—Continued.

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Timber cooly ...	Shaft crosscut W., 23rd level, Tennant's Shaft.	II	Fall of rock from the back of the crosscut.	Wound of scalp, left eye brow, face, knuckle of index finger with tendon cut and metacarpo-phalangeal joint opened, wounds of left thigh, knee, dorsum of foot and contused abrasion of back. Fracture of 8th, 9th and 10th ribs of left side.
Timber cooly ...	Winze below the 51st level S., Glen's Secondary Shaft.	XV	While attempting to reach the bucket-road from the top of a wall in the winze, he slipped and fell down it, a distance of about 80 feet.	Wounds of scalp with fracture of base of skull and wounds of face and left inner ankle. Died in hospital the same day.
Concreting cooly	Cage road above the 72nd level, North Main Winze.	VIII	While riding in the cage, he was thrown out into the shaft and was killed.	Fracture of skull, right leg and right arm mutilated and multiple wounds all over the body.
Machine cooly ...	Rill stope above the 72nd level S., North Main Winze.	XI	A very heavy rockburst	Head jammed, body bloated and highly decomposed, several injuries all over the body. Brought up to surface at 12-20 hours on 28th June.
Do ...	Do ...	Do	Do ...	Head jammed, body bloated and highly decomposed, several injuries all over the body. Brought up to surface at 13-45 hours on 28th June.

Hoisting cooly ...	Drive, 70th level S., North Main Winze.	XVII	While resting in the level, a wheel of a bandy ran over his foot.	Extensive lacerated wound of sole of right foot, contused abrasion dorsum of foot and compound fracture of right great toe
Handjumper cooly	Stope below the 300 ft. level N., Old Carmichael's Shaft.	XIII	Attempted to deepen a socket containing a small quantity of explosives.	Left hand crushed and amputated, foreign bodies in both eyes, peppered wounds of face and chest-wall.
Do ...	Do ...	Do	Do ...	Compound depressed fracture of skull (left-temporal region), wounds and foreign bodies in right eye, left eye burst, wounds of face, peppered wounds of both fore-arms.
Machine mestri, (M. 9,304—B. 6,684).	Stope below the 70th level N., west reef, North Section.	XI	A burst of quartz ...	Deep wound upper third of left forearm, muscles and nerves cut and wound dorsum of index finger.
Shaft mestri, (M. 10,523—B. 7,240).	Skip road below the 380 ft. level, Dalyell's Shaft.	X	While at work in the shaft, a plank fell on him.	Contused abrasion lower part of back, buttocks, both fore-arms and left index finger.
Concreting cooly	Stope above the 77th level N., South Development Winze.	XIX	While cleaning down quartz, a piece of rock fell on his hand.	Lacerated wounds middle of right and left forearms, flexor muscles of former and extensor muscles of latter cut.
Blaster (M. 13,131—B. 8,685).	Plat, 80th level, South Development Winze.	XIX	Owing to the sudden ignition of some acetylene gas, his clothing caught fire.	Burns of face, chest-wall, both forearms, thighs and legs.
Machine cooly ...	Rill stope above the 73rd level S., North Main Winze.	XIX	While drilling a hole, a piece of rock fell on his leg.	Wound lower 3rd of right leg, tendo-achilles completely cut.
Machine cooly ...	Drive, 71st level S., North Main Winze.	XI	A rockburst ...	Extensive lacerated wound lower third of left leg with compound fracture of tibia, muscles cut, lacerated wound of left knee, dorsum of foot and wounds lower third of right forearm, middle finger and left little finger.

Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Machine cooly ...	Footwall drive, 80th level S., Heathcote Shaft.	XI	A burst of rock ...	Lacerated wound lower 3rd. of right leg, peroneal tendons cut and external malleolus chipped, wound of right thigh.
Road cooly ...	Drive, 70th level S., North Main Winze.	XIX	While lifting a girder, it slipped and fell on his foot.	Contused lacerated wounds of dorsum of left foot.
Stuff mestri, (M. 9,768—B. 6,871).	Drive, 23rd level S., Tennant's Shaft.	XVII	Owing to the derailment of a bandy, his feet were struck by a wheel.	Compound fracture of left great toe with lacerated wound sole of foot, wounds of tips of 2nd, 3rd and 4th toes, contused abrasion dorsum of right foot and wound of great toe, nail off.
Stuff cooly ...	Drive, 71st level S., South Development Winze.	XVII	Owing to derailment of the bandy, his hand was caught between it and an air pipe.	Right middle and ring fingers crushed, middle one amputated at the end of its joint and ring at metacarpo-phalangeal joint and wounds of index and little fingers.
Timber mestri, (M. 13,362).	Stope below the 800 ft. level N., Tennant's Shaft.	XIX	While cutting a hitch, a chip of rock flew into his eye.	One day old corneal ulcer of right eye.
Trammer ...	Tramline near Gifford's Ore Bin, (surface).	XXII	His hand was caught between two bandies.	Simple fracture lower end of left radius.
Pipe cooly ...	Plat, 76th level, North Main Winze.	XIX	While fixing an air pipe, a piece of rock fell on his foot.	Lacerated wound dorsum of left foot, muscles and tendons cut.
Timber cooly ...	Drive, 74th level S., North Main Winze.	XVII	Run over by a bandy ...	Extensive lacerated wound, dorsum and sole of left foot with compound comminuted fracture of the 1st metatarsal and wounds of right great and second toes, nails off.
Machine cooly . .	No. 5 winze below the the 76th level S., South Development Winze.	II	Fall of ground from the footwall ...	Fracture base of skull, wounds of forehead, right elbow, knee, extensive lacerated, wounds of right-ankle, dorsum of foot with compound fracture lower end of fibula.

AND SERIOUS ACCIDENTS

OF MYSORE DURING THE YEAR 1935.—*Continued.* Table 13.—*Continued.*

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Concreting cooly	Stope below the 73rd level S., South Development Winze.	XIX	While mixing concrete, some slush flow into his eye.	Wound of left cornea with hypopion.
Road cooly ...	Cage road at the 22nd level, Tennant's Shaft.	XIX	While removing a timber, a piece of rock fell on him.	Deep lacerated wound of left buttock, gluteal muscles injured with fracture of sacrum. Died in hospital on 17th November.
Timber mestri, (M. 11,561—B. 7,858).	Drive 51st level S., Glen's Secondary Shaft.	XIX	Collapse of level ...	Contused abrasions of right chest-wall and back with fracture of upper ribs and surgical emphysema. Died in hospital the same day.
Machine cooly ...	Stope below the 76th level, N., South Development Winze.	XI	A burst of quartz ...	Lacerated wound middle 3rd of right forearm, ulnar arteries flexor muscles, tendons and medium nerve cut, and ulnar nerve very slightly injured.
Machine mestri (M 12,190)	Sink of No. 1 winze below the 80th level S., South Development Winze.	XIX	While drilling, a piece of rock fell on his knee.	Wound of right knee, joint opened.
Stuff cooly ...	Rill stope above the 72nd level S., South Development Winze.	XI	A rockburst ...	Multiple wounds all over the body and lacerated wound of right knee.
Carpenter ...	Bazaar Hut, No. 1 Block (surface.)	XXIII	He fell from the roof of a hut ...	Fracture of 12th dorsal vertebra.
Stuff mestri (M. 2,627—B. 251).	Drive, 72nd level S., North Main Winze	XIX	While filling a bandy at a chute, a piece of rock rolled down and fell on his hand.	Colles' fracture, left.
Packwall cooly ...	Stope above the 75th level S., South Development Winze.	XIX	While building a packwall, a piece of rock fell on his knee.	Lacerated wound of left knee, joint opened.
Timber cooly ...	No. 1 winze on the Main Reef, 76th level N., North Main Winze.	XV	While climbing up by ladder, he slipped or lost his hold and fell 15 feet.	Concussion of brain and wound of left forearm, muscles slightly cut, cerebral compression following head injuries. Died in hospital on 14th December.
Machine cooly ...	No. 1 winze, 80th level S., South Development Winze.	XI	A burst of rock ...	Wound of left knee, joint opened and quadriceps femoris tendon cut.

Table 13.—Continued.

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Machine cooly ...	Drive, west reef, 76th level N., Bullen's Incline Shaft.	XIX	While drilling, some pieces of loose rock fell on him.	Wounds of lower lip, right elbow, right hip, left forearm, lower 3rd of right leg, contused wounds of inner and outer ankle, contused abrasion of back, chest wall and left thigh, fracture of 3rd right fibula.
Cage-road cooly...	Skip road above the 50th level, Oakley's Incline Shaft.	XIX	While tightening a studdie, his hand was caught between it and a wall plate	Left middle, ring and little fingers crushed and amputated and lacerated wound of index finger.
Stuff cooly ...	Quartz chute below the 79th level, Bullen's Incline Shaft.	X	He was struck by a concrete block which was accidentally dropped from above.	Simple fracture outer 3rd of right clavicle and abrasions of shoulder and arm and contusion of right thigh.
Handjumper mestri (M. 14, 103-B. 9,097).	Stope below the 68th level N., Auxiliary Shaft.	XIII	Through intersecting a socket containing a small quantity of an unexploded charge of blasting gelatine.	Peppered wounds of face, neck, chest-walls both arms, hands and legs. Foreign body in both eyes with penetrating wounds into the left eye with prolapse of iris and haemorrhage into the anterior chamber.
Handjumper cooly	Do ...	Do	Do ...	Peppered wounds of face, neck, chest-wall, right arm and foreign bodies in both eyes.
Lander ...	Top of Bullen's Shaft (surface.)	IV	Owing to overwinding, a piece of rock from a self dumping skip fell down and struck his arm.	Lacerated wound with compound fracture of lower 3rd of left radius.
Stuff cooly ...	Drive, 80th level N., Bullen's Incline Shaft	XIX	While clearing stuff, a piece of rock fell on his foot.	Contused lacerated wound of dorsum of left foot, bone chipped.
Handjumper cooly	Stope below the 72nd level N., Bullen's Incline Shaft.	XI	A rockburst ...	Compound fracture of left leg and multiple injuries all over the body.
Machine mestri (M. 9,676).	Stope below the 72nd level S., Bullen's Incline Shaft.	XIX	While cleaning the working face, a piece of rock fell on his knee.	Punctured wound of right knee, joint opened.

OF MYSORE DURING THE YEAR 1935.—Continued. Table 13.—Continued.

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Stuff cooly ...	Drive, 25th level N., Oakley's Incline Shaft.	XIX	While pushing a bandy, his leg slipped through the covering of a ventilation winze.	Compound fracture middle of left thigh and wound middle of left leg.
Machine cooly ...	Sink, 70 feet below the 81st level, Auxiliary Shaft.	XI	A burst of rock ...	Lacerated wound over left tendo-achilles, tendon completely cut and wounds behind right outer ankle and upper 3rd of leg.
Do ...	Do ...	Do	Do ...	Lacerated wound over left tendo-achilles, tendon injured and wounds of lower 3rd of right leg.
Timber cooly ...	Timberyard near Oakley's Shaft (surface).	XXIII	While lifting a timber on to his shoulder, his foot slipped causing the timber to strike him.	Simple fracture outer 3rd of left clavicle.
Timber cooly ...	Drive, 63th level N., Auxiliary Shaft.	XIX	While fixing a steel set, a piece of rock fell on his leg.	Lacerated wound lower 3rd of right leg, tendo-achilles completely cut.
Machine cooly ...	Sink of No. 6a winze below the 79th level S., Auxiliary Shaft.	XV	While hoisting stuff from the sink, some pieces of rock dropped on him.	Compound depressed fracture of skull, deep wounds of right side of neck.
Timber cooly ...	Slope below the 70th level N., Bullen's Incline Shaft.	XI	A rockburst ...	Compound depressed fracture of skull, compound fracture of upper 3rd of left leg and multiple wounds all over body. Died in hospital the same day.
Tramming cooly	Tramline near Oakley's Shaft (surface).	XXII	A bandy he was pushing derailed resulting in his foot being caught under it.	Extensive lacerated wound, dorsum of right foot with compound fracture of all the five metatarsals.
Machine mestri (M. 14,130).	Shaft crosscut, 81st level, Auxiliary Shaft.	XIX	While drilling, a piece of rock fell on his hand.	Right middle and ring fingers crushed and amputated at the ends of first joints.
Timber cooly ...	Drive, 70th level S., Bullen's Incline Shaft.	XIX	While stacking granite stones, one of them dropped on his hand.	Compound fracture of right index finger.
Stuff cooly ...	Tramline, shaft crosscut, 58th level, Auxiliary Shaft.	XVII	A wheel of a bandy passed over his foot.	Left last 3 toes crushed and amputated.

Table 13.—*Continued.*

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Blaster cooly ...	Drive, 78th level N., Auxiliary Shaft.	XIX	While cleaning stuff, a piece of rock fell on his leg.	Right tendo-achilles partly cut.
Winch driver ...	Top of No. 2 winze, 79th level S., Bullen's Incline Shaft.	XIX	His hand was caught between the bucket and the sheave wheel.	Lacerated wound of left forearm, flexor muscles cut.
Cooly ...	Mr. Bate's Bungalow (surface).	XXIII	While demolishing a parapet wall, the crowbar slipped and fell on his foot.	Lacerated wound dorsum and sole of left foot.
Handjumper cooly	Slope below the 67th level N., Auxiliary Shaft.	XIX	While drilling, a piece of rock fell on his back.	Extensive lacerated wound of left side of back, muscles cut.
Stuff cooly ...	Plat, 52nd level, Oakley's Incline Shaft.	XIX	While stepping out from the top deck of the cage, he sustained a strain.	Hernia due to an accident.
Concreting cooly.	No. 2 winze, 81st level, Bullen's Incline Shaft.	XIX	While unloading concrete blocks, one of them fell on his foot.	Right great toe crushed and amputated.
Tube Mill Pebble cooly.	Tramline, Tube Mill House (surface).	XXII	While sorting pebbles, a wheel of a bandy passed and grazed his foot.	Wound below right outer ankle and heel.
Tramming cooly	Tramline, Quartz yard, Oakley's Shaft (surface).	XXIII	He was crushed under a descending bandy cradle.	Fracture of skull and broken spine.
Handjumper foreman (M. 11,005-B. 7475).	No. 1 slope below the 26th level N., Oakley's Incline Shaft.	XIX	While taking down loose, a small chip of rock flew into his eye.	Wounds of left upper and lower eye-lids with contused abrasion of eye and hæmorrhage into the anterior chamber.
Stuff cooly ...	No. 2 winze below the 79th level S., Bullen's Incline Shaft.	XV	He was struck by a piece of rock which fell down the winze.	Lacerated wound of scalp and concussion of brain. Died in hospital on 2nd July.
Handjumper cooly	Slope above the 70th level S., Bullen's Incline Shaft.	XIX	While drilling, a piece of rock dropped on his foot.	Extensive lacerated wound dorsum of left foot.
Machine cooly ...	Plat, 79th level, Auxiliary Shaft.	XIX	While in the act of decking a quartz bandy, the cage was suddenly hoisted causing the bandy to capsize, resulting in its contents falling on him.	Wounds of forehead below right eye, nose, left elbow, contused abrasion both lower extremities.
Cage-road cooly. (M. 13,295).	Footwall chute above the 48th level, Bullen's Incline Shaft.	XIX	While a skip was being dumped, some pieces of rock fell on his leg.	Extensive lacerated wound lower 3rd of left leg, muscles cut, compound fracture of lower end of fibula and lacerated wound below left inner ankle.

Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Machine cooly ...	Sink, 80 feet below the 82nd level, Auxiliary shaft.	XI	A burst of rock ...	Contused wound lower 3rd of right leg over tendo-achilles and heel.
Machine mestri, (M. 14,097—B. 9,095).	Drive, 80th level N., Bullen's Incline Shaft.	XIX	General debility and exhaustion resulting from working in a hot place.	Died in hospital on 17th August.
Stuff cooly ...	Drive, 58th level S., Auxiliary shaft.	XVII	He was struck by the edge of a moving bandy.	Simple fracture of left clavicle.
Road cooly ...	Cage road, 30 feet below the 82nd level, Bullen's Incline Shaft.	XIX	While working in the shaft, he inadvertently came in contact with a live wire.	Electric burns of left palm and lower 3rd of forearm and shock.
Machine cooly ...	Stope below the 72nd level N., Auxiliary Shaft.	XIX	While at work in the stope, a piece of rock fell on his foot.	Lacerated wound of dorsum and sole of left foot with compound fracture of 5th metatarsal.
Handjumper cooly	No. 50 stope below the 67th level N., Auxiliary Shaft.	XIX	While clearing stuff, a piece of rock fell on his leg.	Lacerated wound of left tendo-achilles, tendon completely cut.
Machine mestri, (M. 12,635—B. 8,421).	Stope below the 77th level S., Auxiliary Shaft.	XIII	Due to explosion of an old hole containing a portion of the previous charge of explosives.	Left leg smashed and amputated, wound of scalp, foreign bodies in both eyes, peppered wounds of face, right forearm and right lower extremity. Died in hospital the same day.
Machine cooly ...	Sink, 102 feet below the 82nd level, Auxiliary Shaft.	XI	A rockburst ...	Extensive lacerated wound upper 3rd of right leg with compound fracture of fibula with muscles cut, right thigh muscles injured and middle of left thigh, wounds of forehead, front of chest wall and lower 3rd of left forearm and simple fracture middle third of left humerus. Died in hospital the same day.
Do ...	Do ...	Do	Do	Wounds of forehead, both forearms, middle of right thigh with muscles cut, wounds of both legs and contusion of back.

Table 13.—Continued.

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Cooly ...	Fitting shop yard (surface).	XXIII	A rail fell on his foot ...	Comminuted fracture of terminal phalanx of left great toe.
Stuff cooly ...	Drive, 55th level N., Oakley's No 2 Vertical Shaft.	XIX	While pushing a bandy, his leg slipped through a gap in the grizzly over a ventilation winze.	Compound fracture upper 3rd both bones of right leg.
Shaft cooly ...	Cage road below the 64th level, Auxiliary Shaft.	VIII	Fall in shaft ...	Head completely smashed and severed.
Gang cooly ...	Compressor House, Balaghat Mine (surface).	XXIII	While shifting an electric motor with the help of a pole, the latter slipped and fell on his right ankle.	Wound of right heel and contused swelling of ankle with fractures of internal and external malleoli.
Stuff cooly ...	Drive, 78th level S., Auxiliary Shaft.	XIX	While clearing stuff, a piece of rock fell on his leg.	Lacerated wound lower third of left leg, tendo-achilles completely cut. Died in hospital on 20th February 1936.
Machine cooly ...	No. 1 A. winze below the 78th level S., Bullen's Incline Shaft.	XIX	While drilling a hole, some slush flew into his eye.	Wound of right eye with posterious synechia.
Handjumper cooly	No. 12 stope below the 56th level S., Bullen's Incline Shaft.	XIX	While drilling a hole, a piece of rock fell on his arm.	Wound of right elbow, joint opened.
Concreting cooly	Sink, No. 6 winze below the 81st level S., Auxiliary Shaft.	XIX	While at work in the sink, a piece of rock fell on his arm.	Lacerated tendons, ulna artery and ulna nerve right.
Cage road cooly	Skip-road below the 68th level, Bullen's Incline Shaft.	X	He was knocked down the shaft by a falling divider dislodged by a derailed cage.	Head smashed and hand fractured.
Concreting cooly	Top of No. 1 "A" winze below 79th level S., Bullen's Incline Shaft.	XIX	While filling a bucket with concrete, some slush flew into his eye.	Corneal ulcer on an old opacity, left eye.
Tramming cooly	Sand bin near slimes plant (surface).	XXII	While tipping a truck over the sand bin, the body was pulled over to the side so much that it fell off the carriage on to his foot.	Lacerated wound dorsum of right foot, tarsometatarsal joints opened and tendons cut.
Machine cooly ...	Drive, 80th level S., Auxiliary Shaft.	XI	A burst of quartz ...	Comminuted fracture upper and lower ramus of pubis on both sides. Fractured ischium and sacrum. Fractured transverse process of 5th left vertebra. Died in hospital the same day.

Machine cooly ...	Crosscut W. to Bullen's Incline Shaft from 82nd level S. from No. 3 winze.	XIX	He was overcome by the excessive heat of the working place.	Heat exhaustion. Died in hospital on 20th November.
Handjumper cooly	Drive, 77th level S., Auxiliary Shaft.	XI	A rockburst ...	Wound of right knee, joint opened, wounds of right forearm, dorsum of hand, ring finger and lower 3rd of right leg.
Do ...	Do ...	-Do	Do ...	Lacerated wounds of scalp with fracture, outer table of skull, contused abrasions of back, right shoulder, wrist and left knee.
Pipe cooly ...	Drive, 81st level S. from No. 8 winze below 79th level S., Auxiliary Shaft.	XIX	While fixing an air pipe, a piece of rock fell on his knee.	Neglected injury of left knee.
Machine mestri (M. 11,531—B. 7,828).	Crosscut E., 82nd level, Bullen's Incline Shaft.	XI	A rockburst ...	Fracture of skull, both legs and left forearm with abrasions all over the body.
Timber cooly ...	Stope below the 50th level N., Oakley's Incline Shaft.	XV	While climbing up by ladder, he slipped and fell.	Wounds of scalp, forehead and face with concussion of brain.
Timber cooly ...	Drive, 1,610 ft. level N., Oakley's Shaft.	XIX	While breaking a large piece of rock, a small chip flew into his eye.	Wound of right cornea with hæmorrhage into the anterior chamber.
Timber cooly ...	Drive, 65th level N., Bullen's Incline Shaft.	XIX	While taking measurements for a timber, a stone fell on his foot.	Extensive lacerated wound of left foot, last toe crushed.
Handjumper cooly	No. 33 stope below the 65th level N., Oakley's No. 2 Vertical Shaft.	XIX	While drilling, a piece of rock fell on his leg.	Wound of right outer ankle, tendo-achilles half cut.
Handjumper cooly	Stope below the 44th level N., Oriental Main Winze.	XI	A rockburst ...	Wound of forehead and right knee, joint opened.
Do ...	Do ...	Do	Do ...	Contused wound of right thumb, middle finger and ring index crushed and amputated, lacerated wounds of dorsum and sole of right foot and wounds of left leg and index finger.

OF MYSORE DURING THE YEAR 1935.—*Continued.* Table 13.—*Continued.*

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Hoisting cooly ...	Loading Station below the 48th level, Henry Shaft.	XVII	A wheel of a bandy passed over his foot.	Extensive lacerated wound dorsum and sole of right foot, 2nd, 3rd and 4th toes crushed and amputated.
Timber cooly ...	Stops above the 48th level S., Kennedy's Section.	XIX	While fixing a stage, a piece of rock fell on his leg.	Compound fracture of both bones of left leg with lacerated wounds of lower 3rd leg, muscles cut.
Machine cooly ...	Sink of S. 19 winze, 110 feet below the 54th level S., No. 3 Auxiliary Shaft.	XIX	He was struck by a descending bucket.	Chest crushed with penetrating wound of upper left arm.
Machine cooly ...	No. 2 winze below the 61st level N., No. 1 Auxiliary Shaft.	XV	He was knocked down the winze by a descending bucket.	Simple fracture of upper 3rd of left humerus, compound fracture of lower 3rd, both bones of left forearm and contusion of hip.
Machine cooly ...	No. 1 winze below the 59th level S., No. 3 Auxiliary Shaft.	XV	While climbing up by ladder, he slipped and fell to the sink.	A deep wound below the right elbow with multiple injuries to both forearms, left knee and right heel.
Machine cooly ...	Plat, 61st level, No. 1 Auxiliary Shaft.	XIX	While breaking a large piece of rock, a chip flew into his eye.	Corneal ulcer of right eye with hypopion. The eye has very little vision.
Stuff cooly ...	Drive, 60th level S., No. 1 Auxiliary Shaft.	XIX	While filling a bandy, a piece of rock fell on him.	Lacerated wound of right heel, contused punctured wound of upper part of back.
Machine mestri, (M. 12,414—B. 8,313).	Drive, 59th level S., No. 2 Auxiliary Shaft.	XIX	While walking over a pile of stuff, he slipped and fell.	Simple fracture lower 3rd of left tibia with abrasions.
Machine cooly ...	Drive, 60th level N., No. 4 Auxiliary Shaft.	XI	A burst of rock ...	Contusion of left ankle, wound lower 3rd of both forearms and right knee.
Machine mestri, (M. 12,812—B. 8,508).	Drive, 59th level N., No. 2 Auxiliary Shaft.	XIII	Through intersecting a socket containing a small quantity of blasting gelatine.	Wounds and foreign bodies in both eyes, peppered wounds of face and chest-wall.
Machine cooly ...	Do ...	Do	Do ...	Wounds and foreign bodies in both eyes, peppered wounds of forehead, face, chest-wall and left forearm.

9	10	11	12	13
Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Night turner, (M. 5,001).	Cage road below 900 ft. level, Richards Shaft.	XIX	While riding up in the cage, some dirt fell into his eye.	One day old wound of right eye with no vision and cataract both eyes.
Machine cooly ...	Drive, 61st level S. from N. 23 winze N., No. 1 Auxiliary Shaft.	XI	While drilling, some pieces of rock fell on him.	Lacerated wound dorsum of left foot and wounds of both legs.
Handjumper cooly	Stope below the 56th level S., No. 3 Auxiliary Shaft.	XIX	While clearing stuff, a piece of rock fell on his leg.	Wound over left tendo-achilles, tendons slightly injured.
Saw filer (M. 14,251).	Plat 48th level, Henry Shaft.	XIX	While driving a nail into his work bench, it rebounded and struck his eye.	Penetrating wound of left eye with very little vision, cataract in both eyes.
Timber cooly ...	Drive, 57th level N., No. 1 Auxiliary Shaft.	XIX	While fixing a timber, a piece of rock fell on his knee.	Wound of left knee, joint opened.
Timber cooly ...	Rise above the 61st level N., No. 1 Auxiliary Shaft.	XIX	While cutting a hitch, a piece of rock fell on his knee.	Two days' old septic wound of left knee with cellulitis.
Stuff cooly ...	Intermediate drive S., 61st level from N. 18 winze N., No. 1 Auxiliary Shaft.	XIX	While clearing stuff, a piece of rock fell on his knee.	Wound of left knee, joint opened.
Concreting cooly.	Drive, 59th level S., No. 2 Auxiliary Shaft.	XVII	A wheel of a bandy passed over his foot.	Extensive lacerated wound sole of right foot and contused abrasion of dorsum.
Handjumper cooly	No. 5 winze below the 61st level S., No. 1 Auxiliary Shaft.	XV	While hoisting stuff from the sink, a piece of rock from the bucket fell on his knee.	Lacerated wound with left knee-joint opened. Died in hospital on 17th June.
Timber cooly ...	N. 16 stope below the 44th level N., Oriental Section.	XI	A burst of quartz ...	Wound of left knee, joint opened and wound lower third of left forearm.
Machine mestri (M. 9,912-B. 6,941).	No. 2 winze below the 59th level S., No. 2 Auxiliary Shaft.	XV	A jumper fell down the winze and struck his arm.	Simple fracture of lower third of left ulna.
Stuff cooly ...	S. 7 winze below the 59th level S., No. 2 Auxiliary Shaft.	XV	While walking over the planks covering the winze, he over-balanced and fell into the sink, a distance of 12 feet.	Contused abrasion of forehead and right eye-brow with fracture of base of skull.
Assistant Foreman (M 11,927)	Drive, 59th level S., No. 3 Auxiliary Shaft.	XVII	A wheel of a bandy passed over his foot.	Extensive lacerated wound of right heel with loss of tissue and abrasion lower 3rd of leg.

Occupation	Place of Accident	Class of Accident in terms of Table 7	Cause of Accident	Nature of Injury
Slime cooly ...	Stairway in front of No. 1 Pachuca slimes plant, (surface).	XXIII	He tripped against a stone and fell into a pit.	Contusion of left heel and contused swelling of left ankle.
Underground wireman.	Plat, 48th level, No. 3 Auxiliary Shaft.	XIX	The cable he was unloading dropped on his knee.	Contused swelling of left knee and contused abrasion of right knee. Acute infective arthritis.
Machine cooly ...	Plat, 63rd level, No. 4 Auxiliary Shaft.	VIII	While getting out of the bowk, he slipped and fell into the sink.	Multiple wounds all over the body with internal injuries.
Stuff mestri (M. 14,325).	Drive, 49th level N., No. 1 Auxiliary Shaft	XIX	While releasing a choke in a chute, some pieces of rock fell on his hand.	Lacerated wound of left index finger and compound fracture of proximal phalanx and extensor tendon cut and wound of middle finger and abrasion of forearm.
Handjumper cooly	Stope below the 43rd level S., Tennant's Main Winze (Balaghat Section).	XI	A rockburst	Lacerated wound of right forearm, muscles cut, contused abrasion of right side of chest-wall with fracture of 10th rib and wound of arm.
Do ..	Do ...	Do	Do	Wound of right knee, joint opened.
Assistant fitter ...	Fitting shop (surface).	XXIII	A sharp piece of steel shaving cut his leg.	Wound over left tendo-achilles, tendon partly cut.
Machine cooly ..	Sink, 90 feet below the 61st level, No. 1 Auxiliary Shaft.	XI	A rockburst	Lacerated wound of right forearm with compound fracture of lower 3rd of ulna and extensor muscles cut, wounds of both legs.
Do ...	Do ..	Do	Do	Lacerated wound with compound fracture of skull, outer table chipped off, punctured wound of left elbow, abrasion of nose and forehead.
Machine mestri (M 13,054).	Sink, 100 feet below the 57th level, Ventilation Winze S., No. 3 Auxiliary Shaft.	XIX	While at work in the sink, a piece of rock fell on his arm.	Wound middle of left forearm with simple fracture of middle of humerus.
